Table 3: **DKKM Hansen-Jagannathan Distances - BGN**. Rows show different α values. Columns show number of DKKM factors. Values are mean HJ distances across panels.

.._dkkm_sharpe_boxplot.pdf

Figure 3: DKKM Sharpe Ratio Distribution - BGN

A boxplot showing the distribution of DKKM HJ Distance for the BGN group. The plot includes a central box representing the interquartile range, a horizontal line for the median, and whiskers extending to the minimum and maximum values. The plot is titled '.._dkkm_hjd_boxplot.pdf' in a monospaced font.
